

Webcast: IMMUNIZATION UPDATE 2010

August 5, 2010, 9:00 am – 11:30 am

This live broadcast is CDC's annual update on the most recent and significant developments in the rapidly changing field of immunization. Anticipated topics included influenza, pneumococcal conjugate, human papillomavirus and meningococcal vaccines. Other emerging issues will be discussed, including the latest information from the June 2010 meeting of the Advisory Committee on Immunization Practices. The broadcast will occur live and will feature a live question-and-answer session in which participants nationwide can interact with the course instructors via toll-free telephone lines.

Objectives

After this program, participants will be able to:

- List two recent immunization recommendations made by the Advisory Committee on Immunization Practices (ACIP).
- Describe two emerging immunization issues.
- Locate resources relevant to current immunization practice.
- Obtain, assess and apply patient information to determine the need for immunization.
